smart serve™600

Empower your customers to borrow and optionally return their own library items

With a modern look, the smartserve™ 600 kiosk has been specifically engineered to attract the attention of library users.

By integrating the latest technology with a modern design, the smartserve™ 600 provides energy saving features, reliable performance and adjustable height settings.

From the very first use, your customers will experience heightened privacy, increased independence and reduced wait times as they control their own transactions. With RFID embedded in the large glass table, items are read instantaneously providing maximum convenience.

With the implementation of a smartserve™ 600, library staff are allowed more time to assist customers, promote reading and offer personalised customer service.

smartserve™600

Modern self-service designed for libraries

Robust 17" touchscreen
The IR touch technology screen provides users with the best overall experience and allows for large, easily readable text and graphics. Made with a tough protective surface material, it reduces signs of wear over time.

Built-in printer
Provides the user with a receipt of their current transaction or a simple statement of items that are currently on their account.

Secure and easy to maintain
A key-secured top provides access to the printer and USB slots for basic maintenance and on-site support.

Height adjustable
An optional front mounted touch switch allows customers to control the height of the kiosk, providing access for all ages as well as disabled users, meeting the UK DDA Guidelines and Americans With Disabilities Act.

Reliable and accurate item detection
The dedicated reading zone is designed for maximum detection of items and also prevents cross-reads to other adjacent kiosks.

Large surface
The large glass table provides an area with plenty of room to set items down.

Safe design
A secure, weighted base ensures that smartserve™ 600 remains sturdy on the floor.

smartserve™600

Modern self-service designed for libraries

Dimensions w x d x h

Millimeters: 860 x 565 x 1450
Inches: 34 x 22 x 57
